## MINING, BUSINESS AND STOCKS

## PARK TROUBLES **BROUGHT TO CLOSE**

Miners and Managers Meet; Discuss Former's Requests and Reach Agreement.

MEN'S DEMANDS ARE GRANTED

Starting Tomorrow They do Not Leave Collar of Shaft Until Seven O'Clock -Camp Jubilant.

(Special to the "News,") Park City, April 15.-The strikes at the Daly West and Ontario mines have come to a welcome end and tomorrow morning work will be resumed at both morning work will be resumed at both properties. Mules brought out from the mine Saturday when the trouble was at its height are being lowered into the mine again today. It was the action of the mine in bringing out the miles that shattered all hopes for an early settlement. Happilly, however, a meeting held yesterday between miners and mine managers resulted in an agreement, satisfactory to both, being reached. Hereafter the men will start into the mines at i o'clock instead of at 6:45, as was desired by the mines at first. The men will have 20 minutes for dinner and will then start towards surface at 3:20. By this arrangement the miners are in the mines eight hours and 20 minutes. They eat on their own time 20 minutes. They eat on their own time but waik between their places of work in the mine and shaft on the company's This scheme was acceptable

the inine managers and was practically just what the men were asking. The feeling in camp as a result of the inst what the men were asking.

The feeling in camp as a result of the settlement is evident everywere. Last evening the streets were crowded with men, women and children, not men alone like the preceding evening. Saturday evening there was in the neighborhood of 400 men idle and roaming up and down the main streets of the camp. Last evening the knowledge that morning would see the resumption of work spread a vastly different feeling through Park City. With the exception of the difficulty at the Ontario drain funnel there is now nothing in the form of inbor troubles. Owing to the extreme danger and the refusal of the company to add a quarter to the daily wages, the dozen men working in the drain tunnel walked out over a week ago and are still out. The second walk-out of 90 men at the Ontario mine, resulting from "starting-and-quitting-time" disagreements, occurred several days ago, followed by the Daly West demonstration. The camp expected the Silver King miners to walk out should the mine refuse to meet their demands, but the matter is now settled once for all and there is now little likelihood of any difficulties ahead. The happy results of the conference between mine-managers and their employes is largely due to the willingness of Manager Ernest Bamberger to listen to all reasonable demands and it was he who played an infinential part in patching differences. The Daly West mill, shut down with the mine, will be put into motion tomorrow morning also and this will take over 50 idle men back to their places of duty. The camp is nothing less than jubilant.

## IS NOT WORRIED.

W. H. Tibbals Discusses Stock Situation and Explaines Hopeful Attitude.

W. H. Tibbals, the well known local broker, is optimistic at all times and recent flurries, slumps, declines in the stock market do not worry him a bit. When he tells you why he is hopeful you are convinced that, like the ad. says, "there's a reason." Mr. Tibbals says the present year opened with the herizon looking clear and bright. Suddenly a cloud appeared in the form of railroad suftation. The railroads Suddenly a cloud appeared in the form of railroad agitation. The railroads put a temporary end to building and improvements, and their stocks dropped. Mining securities took a tumble, partly due to Nevada labor troubles, so the present quiet is simply a period of rest and waiting. Mr. Tibbalz, continuing, says:

"Mining itself has not been affected in any way. The output from the various mines in this state continues unabated. Many new properties are

unabated. Many new properties are being developed. Before the end of the season, we shall see the copper output nearly double.

"In the adjustment of the present conditions, investors will undoubtedly turn to good mining stocks. They realize great profits made by wise in-

realize great profits inade by wise investments in our mining interests.

"Our business is certainly on a safe foundation. There are some who are crying out against the prosperity and predicting failures. If there were any inflation we might expect a collapse. So long as production keeps pace with values or prices there is no investment. values, or prices, there is no inflation. A careful study of the facts will show the truth of this statement. Since 1909 production has kept pace with

na parity. It is only when prices are in excess of values that there is danger.

"The wealth of the country has increased since 1990 33 per cent. The question is—has production kept pace with this marvelous increase? If it has, we must conclude that our business is on a sound financial basis.

"The iron industry is generally taken as a reliable index. A writer, in a recent issue of the Statist gives interesting figures regarding the production of iron and other commodities. In 1990, there were produced it 390,-600 tons of pig fron. We are now producing annually 23,341,250 tons, showing a gain of 65 per cent. If we examine the figures on manufactured products, we find that in 1905 they were 29.7 per cent greater than Libuo. Reliroad tonnage has increased 22.78 per cent, cotton 11.4 per cent and our foreign trade 44.4 per cent. The average of all these is 24.53 per cent, while the increase in valuation of the wealth of the country was 33.3 per cent. ipkid-onafid-rick.leeyp@chgeCduxcylmd

HARRY SHIPLER HOME.

Returns After Month's Prospecting

Trip Through Fitting District. Harry Shipler, who'll take anything anywhere, is home after a month's prospecting trip in the Gold Butte re-gion, about 49 miles east of Moapa Nevada. He left J. E. Shipler on the Nevada. He left J. E. Shipler on the ground, where location work is now under way. The Shipler holdings at this point—eight miles southwest of Gold Butte—comprise a number of good copper claims. Several strong ledges indicate that ore bodies lie beneath the surface at a short depth only, and preparations now in progress will result in the group being proved up quickly. Between these claims and Gold Butte—about five miles east of the latter, the Shiplers located seven claims, which promise to show good claims, which promise to show good gold and copper returns with develop-ment. Mr. Shipler says the district is highly mineralized and from the great

highly mineralized and from the great number of prospectors now examining various showings it is evident the entire territory is to be opened up in good shape within a short time.

The Gold Butte Mines company—the pioneer of the dishiriot—has a tunnel in over 450 feet and it is expected just twice this amount of work will open five distinct veins. No strong veins have been cut yet although free gold rock has been encountered in a number of places. The Cedar Basin Nevada Gold Mining company, of which C. M. Temple, formerly of the local ticket offices of the Salt Lake Route, is manager, is preparing to sink on a veln offices of the Salt Lake Route, is manager, is preparing to sink on a vein showing good free gold rock. The Southern Nevada Copper company with property within a mile of Gold Butte is accumulating material and otherwise preparing for active development. McIntyre & Jepnings will open the Bonelli-Gentry iron mines eight miles east of Gold Butte; the present owners bought these mines for the fluxing stuff, solely. There appears to be no limit to the deposits of red oxide and it has been discovered that the stuff goes as high as 35 per cent copper besides being, in itself, excellent for fluxing. The Finance mine, 12 miles south of Gold Butte, is looking well. Its fluxing. The Finance mine, 12 miles south of Gold Butte, is looking well. Its shaft, down 100 feet is in good ore. Copper City, a rival of Gold Butte and two miles east of the latter is being boomed by Los Angeles capitalists. The Cobb copper mine is the base of this beam.

### MAY DAY IS CLOSED.

Old Arrangement With Smelters is Believed Distasteful to New Officials. The May Day is shut down and con-

siderable surprise was caused by the action of the new officials. Supt. Eaken has been succeeded by Supt. Driggs, it is understood. The new superintendent has been in charge of operations at the Uncle Sam. The men employed at the May Day has been laid off without being furnished with any reason other. being furnished with any reason, other than the company sees fit to take this action. It is believed the contract made with the smelters during the regime of Judge J. E. Darmer is disetasteful to the new crowd and this is the probable cause of the shut-down. Nothing explanatory is volunteered by those in a osition to furnish accurate informa-

"The Day Day dry concentrating plant was temporarily closed this week, says the Eureka Reporter, discussing the event. Dyke V. Keedy who leaves today for Salt Lake says that he leaves today for Sait Lake says that he will try to negotiate a long lease upon the mill and also on the low grade or in the mine before enlarging the mill to greater capacity. Had there been no change in the official household of the May Dây Mining company there would have been no necessity for closing the mill as Messrs. Keedy and Deltz had the assurance that their lease would be extended giving them almost any time limit they desired. Mr. most any time limit they desired. Mr. cedy does not know just what ar-ngements he can make with the new officers and until he is sure of this he did not think it advisable to go a head and add another sizer and two more dry tables which are necessary in or-der to increase the capacity of the mill. "The Reporter regrets that it has "The Reporter regrets that it has been necessary to close the mill down even for a short period. The work that has been accomplished in the line of dry concentration by Messrs, Keedy and Dietz at the May Day have been wonderful indeed and it is to be hoped that the new officials of the May Day will be able to grant the gentlemen a lease that will justify them in enlarging the mill.

"After finishing up his business in Salt Lake Mr. Keedy will probably duation. Value and prices are on parity. It is only when prices are excess of values that there is dan-

In this same building other counties of the state have or are planning to set up similar exhibits. Such exhibits in industrial centers are of great value in making known to visitors our state's mineral resources, and we believe should be more generally established in other mining and commercial centers of western states.

## SUGAR STOCKS.

Have been growing in market value for the past six months. In that time the selling price of stock in both The Idaho Sugar Company and the Western Idaho Sugar Company has steadily advanced, and both companies have been put on a dividend paying basis. In our judgment the rise in value will continue. For this reason all who can keep their stock should do so. If you cannot well hold your stock let us sell it for you. those who wish to buy now is the best time to invest your money A little Western Idaho Sugar stock can be bought at par; and some Idaho today at \$8.50 per share. The former pays 7 per cent and the latter 6 per cent per annum dividends on par (\$10 per share).

#### CONCENTRATES.

The first carload of ore from the The first carload of ore from the strike on the 800-foot level of the Uncle Sam has been sold. The control assays went 36 per cent in lead, 12 ounces of silver and \$1.50 in gold. Thirty-two tons and a few lumps over brought \$1.027. The ore is being opened with an idea of shipping heavily in the near future.

future. Within a day or so a syndicate of Within a day or so a syndicate of Salt Lake and Ogden investors will be organized to take over the White Alps in Humboldt county. This is one of the best propositions in that district and the deal will be of considerable importance in a mining way. The property is being worked at the present time and is showing up in great shape. World comes from Barror countries. Word comes from Beaver county, where nearly 100 mining men of this and neighboring cities are visiting the mines and mills, that every mother's son of them is enjoying himself and learning more about his own state than he realized he didn't know. The excursionists will be home before sun-tup tomorrow and great things will be told of Utah's youngest and one of her most promising regions.

J. M. Wheeler and J. W. Currie are J. M. Wheeler and J. W. Currie are back from a visit to Rosebud district and like dozens of others who have gone through the territory they return enthusiastic over the showings being made, out in Humboldt county, Nevada. Rosebud is growing rapidly, report the returned travelers. Ninety days ago there were nothing but there. there were nothing but tents to be seen. A half dozen frame structures are now under way and work on others will start the minute lumber arrives.

J. B. Jenson, W. M. Roylance and others interested in the Utah-Esmer-alda Copper company are now getting alda Copper company are now getting into Good Springs in good shape. This crowd has purchased from the original locator, C. M. Over, the eight claims constituting the Ninety-Nine group and have added to these six other claims, giving them 14 claims in a most promising district. F. A. Heinze, Samuel Newhouse and other big men are watching a Good Springs district closely and important announcements can ly and important announcements can be expected at any time. The Ninety-Nine has copper rock going from 9 to 29 per cent.

The country east of Milford in Beaver county is due to come forward with various other sections of the county, F. P. Kesler and John Black with a number of others are operating a group of claims in the old Lincoln district. A of claims in the old Lincoln district. A settlement was made yesterday upon a consignment of ore from the Buckele, south of the Hecla company's ground. Mr. Kesler says he expects no boom to his his part of the country but he is contented and confident with what he sees now and what he sees for the near future. The district is highly mineralized. No returns have been obtained from the ore being worked now but ore sold some time ago goes 7 per cent ore sold some time ago goes 7 per cent copper; \$7.20 in gold and 7.5 ounces in silver. A tunnel is to be run the Buckeye to crosscut several ledges.

Pioche is already experiencing the first symptoms of "boomitis" and within a short time will be enjoying a full attack of the same welcome condition. Joseph S. Free, a prominent Ploche op-erator, is in from that camp and he announces that work on the branch from Callente to Ploche was to be comfrom Callente to Floche was to be com-menced this morning. With the excep-tion of a few ties and lengths of rail. Mr. Free, says no material was taken from the accumulated supplies at Cali-ente and now that men have been assembled there is nothing in the way of rapid progress and near completion of a railroad which will bring Pioche to the front. Mr. Free says it is a hard matter to find a place to eat and sleep right now, so great is the number of arrivals registered daily in the camp. The new-comers include all classes and conditions and show that new institu-tions are to be started in the camp and mines opened in the surrounding neighborhood.

#### LONE HIGHWAYMAN GETS \$28,000 FROM STAGE.

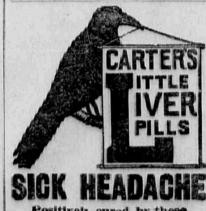

Great Falls, Mont., April 11.—The stage running between Malta and Zortman was held up last night by a lone bandit, according to a telephone message received late tonight, and a same estimated at about \$28,000 is said to have been secured. The message gave no details of the daring robbery other than that it occurred just north of Zortman, and the stage was entering the Little Rockies with a consignment of money to pay the wages of the miners at the Zortman mines.

The robber apparently has five or six

The robber apparently has five or six hours' start of a posse, mounted upon the fastest horses to be had, which left Malta immediately upon receipt of word of the hold-up. The location is in a particularly lonely spot in the mountains, affording every opportunity for the shleter and escape of the bandit. One man commanding a trail there could almost hold a half dozen men at

could almost hold a hair dozen men at bay for hours.

Some member of "Kid" Curry's gang of train robbers and horse thieves is suspected of the hold-up. Six years ago the Curry gang held up a Great Northern train in the vicinity of Malta, securing \$42,000. Many of the pals of "Kid" Curry still live in northern Montana.

## DECLINE, ADVANCE AND THEN REACTION

That, in Short, Tells the Story of The Course of Stocks in The Market.

HILLS AND HARRIMANS WEAK.

Late in Afternoon Speculation Was Marked by Irregular Fluctuations With a Downward Tendency

New York, April 15 .- Opening prices for stocks showed a precipitate decline from last week's closing. The Hill and Harriman stocks and the coppers were weakest and as was the case last week. Amalga nated Copper was carried down 3% Northern Pacific 24, Union Pacific on running sales 2, Great Northern preferred Southern Pacific 1% and Amalgamated Copper 1%. Atchison declined 1% and Reading and Anaconda a point.

Reading and Anaconda a point.

A few losses were intermingled with the brisk rally that began within five minutes after business opened. Otherwiso the recovery was vigorous, though interrupted at times by renewed selfing which, however, was short lived. The rally reached 1 to 2 points in the stocks which had shown the most acute weakness and resulted in fuller recoveries in Northern Pacific, Great Northern preferred and Union Pacific, Baltimore & Ohio fell 1½. Canadian Pacific 2 and C. C. C. & St. Louis 2½ before they responded sympathetically to the improvement elsewhere.

The recovery gained vigor after a slight reaction and advances were carried well over last week's closing. The Hill and Harriman stocks and the coppers maintained their conspicuous postion at the rise as upon the decline. Smelting's advance over Saturday's close reached 2½. Reading 2½. Great Northern preferred 2½. Union Pacific 1½. Copper 1½, St. Paul. Erie first preferred, and National Lead 1½ and Anaconda and Missouri Pacific 1. The market was dull and below the best at noon.

Bonds were irregular.

at noon.

Bonds were irregular.

Beading, Union Pacific and Amalgamated Copper were foremost in the reaction and declined 1 to 1½. The tone remained heavy at 1 o'clock.

Late speculation was marked by irregular fluctations of less than a point with a downward tendency. Very little of the early advances were retained, those in Amalgamated Copper, Smelting, Reading and Union Facific being more than wiped out. American lee lost 4 prints and New York Central and Eric feli back to the low level of the morning.

## PRODUCE.

CHICAGO.

CHICAGO.

Chicago April 15.—The wheat market opened lower on active selling movement based upon reports of rain in the southwest. The reports however, proved some what exaggerated and prices advanced sharply on covering by shorts. May wheat opened 4 to 4 lower at 78½ to 75% and advanced to 75%.

Corn opened easier and advanced in sympathy with the raily in wheat. May corn opened a shade to 46% lower at 47½ to 47% and sold at 48.

Reports of green bug damage were the chief influences affecting the oats market. May was steady, % lower at 44, and sold at 41% 44%.

Provisions were extremely dull. May pork opened 2½ higher at 15.17½; ribs opened unchanged to 3½ lower at 8.47½g 8.50, and lard was off 7½ at 8.62½.

Cash: Wheat—No. 2 red, 78% 679; No. 2 hard, 69676; No. 1 northern, 84% 635½; No. 2 hard, 69676; No. 1 northern, 84% 635½.

"TAINTED MONEY."

Beyan Praises Colleges and Universities That Have Refused It.

sities That Have Refused It.

Washington. April It.—William J.
Bryan addressed hearly 2,000 persons here
today under the auspices of the Y. M. C.
A., and took for his subject "The Prince
of Peace." Mr. Bryan concluded with
praise for the colleges and universities
that have declined to accept money from
wealthy men. "who have gained their
riches by dishonest methods."

"One of our rich men." he said, "has
reached a point where he sometimes finds
difficulty to find people to take his money.
And that I regard as the best evidence
of the growth of a moral sentiment in
this country. It means something when
a great church pauses, hesitates, refuses
to accept the money until it knows how
it was made. I believe the time will come
when churches and colleges will refuse to
go into partnership in the spending of
money immorally made. The influence
of the public opinion will be a powerful
factor in the restoring of rightcousness.
These great institutions should say to a
masn: You did not make your money
honestly; we will not share the odium
with you.

A reception was tendered Mr. Bryan A reception was tendered Mr. Bryan after his address tonight, after which he left for New York to attend the peace

SENATOR COVINGTON CASE. Little Rock, Ark., April 16.—After being out for 26 hours in the case of former State Senator Covington, charged with accepting a bribe, the jury reported a disagreement and was dis-charged Covington was a former presi-dent of the senate.

#### HARRY THAW'S WIFE.

She Was Not Permitted to See Her Husband When She Called.

New York, April 14—Harry Thaw spent a quiet Sunday in the Tombs today. Early in the afternoon his wife called to see him, but Warden Flynn told her that she would have to abide by the usual prison rules, consequently she was not permitted to see her husband, as she had done on previous Sundays during the il weeks that Thaw had been on trial.

### THREE MEN KILLED IN TEXAS & PACIFIC WRECK.

Alexandria, Ia., April 14.—Three men were killed and one probably fatally injured as the result of what is believed to be the work of train wreekers at Cheneyville, 30 miles southeast of here, on the Texas & Pacific railroad, today, when a westbound passenger train plunged into an open switch. DEAD. Engineer John J. Covington of New

Fireman Michael Kass of New Or-

One unidentified man.
The switch lock was broken, the switch turned and the signal lantern thrown away.

### FUNERAL OF HERR AUER.

Berlin, April 14.—The funeral of Herr Auer, member of the reichstag, who ited last Wednesday, was held today and was an imposing demonstration.
Fifty thousand Socialists, including members of the reichstag, attended, and Herr Bebel, the Socialist leader in the lower house, and other made tions at the grave.
